

## **Battling Bedouins**

Upon your journey through the deserts of Mechanica Mundi, you encounter a few Bedouins who claim that they have the secret to building really tall skyscrapers in the middle of the desert.

Your steam punk challenges them to a building challenge. Let's Go!

## Here are the rules.

1. You must use toothpicks or BBQ skewers.
2. You may choose any type of joint that you like.
3. You must build inside of a shoe-box filled with sand. The sand must be filled to the max before you start building.
3. The following attributes will be looked during judging:

Aesthetics ....**100XP**

Cost Efficient (1 gold/toothpick....4 gold/BBQ Skewer) **100XP**

Strength..... **100XP** if it can hold 20lbs.

-20XP for every 5lbs below 20lbs.

Discussions regarding: Joint Strategy (**100XP**)

Bracing Strategy (**100XP**)

**Reward:** 500XP .....Also....The tallest building that is also the strongest and most stable in all of grade 7 will receive 1000 gold x dice of decision per person.
